

**FROM THE DESK OF SCOTT CHRISTIANSEN
WINNEBAGO COUNTY BOARD CHAIRMAN...**

“Welcome to the new Winnebago County Going Green portion of our County website. From the inception of Freedom Field to our newly created Winnebago County Green Team, we are working to make our county a healthier place for our citizens. With all the “Green” information coming at us, it is easy to get overwhelmed. The good news is you can “Go Green” by setting small goals for yourself---such as turning off the lights when no one is in a room, turning down the thermostat, recycling, using cloth bags for your groceries. These small steps will make a big impact on our environment.

We hope you will enjoy checking out this site from time to time as we provide you with information, fun facts, as well as learning what we as government are doing to be better stewards of protecting our environment. We invite you to join Winnebago County Going Green.”
